THE NEXT EDITION OF PARIS PHOTO
WILL BE HELD NOVEMBER 11-14, 2021
AT THE GRAND PALAIS ÉPHÉMÈRE & ONLINE

CURATORS ANNOUNCED FOR
THE CURIOSA SECTOR & ELLES X PARIS PHOTO

The next edition of Paris Photo will be held November 11-14, 2021 at the new Grand Palais Éphémère, designed by the architects Wilmotte & Associés whilst the Grand Palais is renovated. Situated on the Champ-de-Mars, facing the Eiffel Tower, the temporary space will bring together leading galleries and art book dealers, for its long-awaited 24th edition, which will present the best of photographic creation from vintage and modern masters to the latest contemporary trends alongside an ambitious programme of exhibitions, conversations, artist signatures sessions and curated fair paths.

PARIS PHOTO ONLINE VIEWING ROOMS (OVR)

In parallel to physical fair at the Grand Palais Éphémère, Paris Photo will launch its new online platform powered by [Artlogic](#) - the industry leader in digital technology for the art world. The OVR is a complementary space to the physical fair at Grand Palais Éphémère, which will offer exhibitors additional visibility as well as flexibility to present their artworks. Collectors and enthusiasts will also have the opportunity to engage with Paris Photo galleries and art book dealers and purchase premium quality artworks from anywhere in the world. This user-friendly platform will be equipped with numerous functionalities making it easy to find and list favorite exhibitors, discover new talent, and forge new connections with galleries and art book dealers.

CURIOSA SECTOR

This year the Curiosa sector, dedicated to emerging art, will present a selection of 15 projects curated by **Shoair Mavlian**. During the fair, the curator will present a series of conversations on emerging practises and take an in-depth look at the work of the selected artists.

Shoair Mavlian is the director of Photoworks, an international platform that champions early career photographers and innovative ways to share and exhibit photography. Assistant Curator of Photography at Tate Modern from 2011 to 2018, Shoair Mavlian has curated several major exhibitions, including "Don McCullin" (2019), "Shape of Light: 100 Years of Photography and Abstract Art" (2018), "The Radical Eye: Modernist Photography from the Sir Elton John Collection" (2016). Shoair Mavlian's work focuses on the Twentieth Century, conflict and memory, Central and South American photography and emerging contemporary practices.

ELLES X PARIS PHOTO

Paris Photo also continues its commitment to women in photography with *Elles x Paris Photo*, a program initiated in 2019 in partnership with the French Ministry of Culture to promote the visibility of women artists and their contribution to the history of photography. For this edition, **Nathalie Herschdorfer**, art historian specializing in the history of photography, will spotlight a selection of works online and at the fair by women artists and the galleries that support them. Selected artists will benefit from a one-year exhibition on the website ellesxparisphoto.com, a dedicated website and resource space continuously updated with interviews, articles and statistical data on the representation of women photographers.

Nathalie Herschdorfer is the director of the Museum of Fine Arts Le Locle, Switzerland, where she shows a wide range of artists, with a special focus on photography. Very active in contemporary photography and closely following its current developments, she is regularly invited at the international level as a curator and lecturer. She teaches the history of photography at the Swiss art school ECAL in Lausanne, and is the author of several books including *The Thames & Hudson Dictionary of Photography*, published in 2015.

Paris Photo is proud to continue its commitment to photographic creation with the Carte Blanche Students and the Paris Photo-Aperture Foundation PhotoBook Awards, alongside its official partners, BMW with the BMW Arts & Culture Residency, and J.P. Morgan Private Bank with the JPMorgan Chase Art Collection.
